

OKTA VERIFY – APP SETUP FOR ANDROID

- 1 Open the
'Play Store' app.

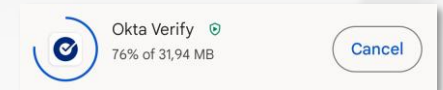

- 2 Search for
'Okta Verify'.

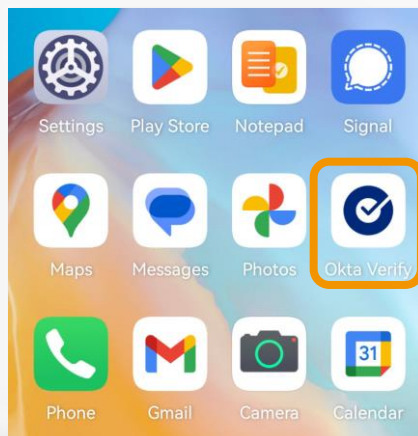

- 3 Start the installation of the app by tapping
the blue 'Install' button.

- 4 Wait until the installation is complete.

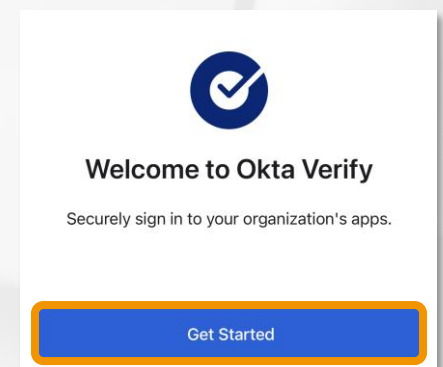

- 5 Now switch back to the home screen.

- 6 Scroll through your
app overview to the app
icon for 'Okta Verify'.
Launch the 'Okta Verify'
app by tapping the
'Okta Verify' icon.

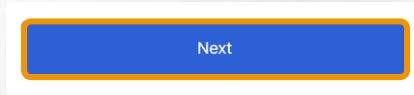

- 7 On the home screen of the app,
tap the blue 'Get started' button.

- 8 Next tap the blue **'Next'** button.

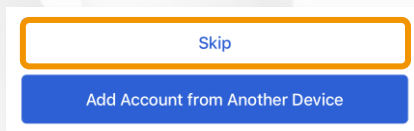

- 9 Then tap on **'Add account'**.

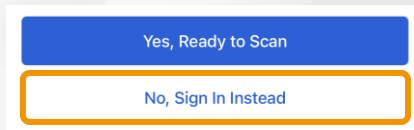

- 10 Then be sure to select **'Organization'**.

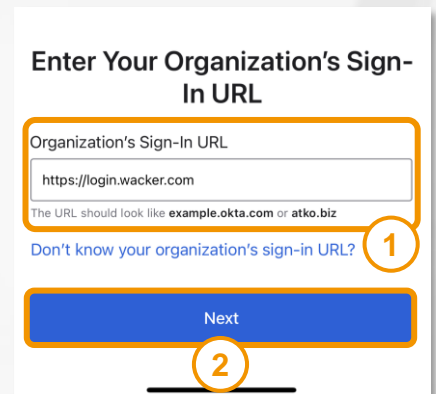

- 11 Then select **'Skip'**.

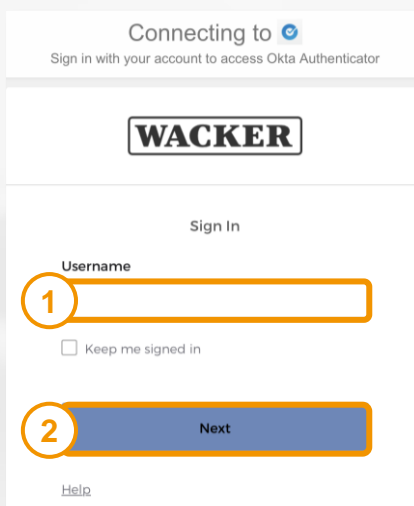

- 12 After that be sure to select the **'No, Sign In Instead'** button.

- 13 In the next window, the following URL must be entered in the **'Organization's Sign-In URL'** field: <https://login.wacker.com>
Finally, please tap on **'Next'** at the bottom.

- 14 In the next window, connect to your WACKER account.
First, enter your Windows user name in the **'Username'** field.
Second, confirm your entry by tapping the blue **'Next'** field.

15 In the following window, verify your password.

First, enter your Windows password in the **'Password'** field.

Secondly, confirm the entry by tapping on the blue **'Verify'** field.

16 In the final step, you can still 'activate biometrics' for the 'Okta Verify' app. To do this, tap the blue **'Enable'** button.

17 Congratulations!

You have successfully installed the **'Okta Verify'** app and added your WACKER account.

Now you can use your smartphone conveniently, quickly and easily for verification at approved Wacker services.

Note:

In **'Okta Verify'** you will see your account and a 6-digit code that changes regularly.

This code serves as a fallback solution for verification if there is no internet connection.

How to get to **Launchpad for Me?**

- ▶ Go to <https://www.wacker.com/>.
- ▶ Scroll all the way down the page to "Portals & Login".
- ▶ Here you can find the link to the "Launchpad for Me".

Tipp:

Do you want to access **Launchpad for Me** conveniently via your own app?

Then SAP Mobile Start is the right app for you.

- ▶ To do this, log in to Launchpad for Me on a second device.
- ▶ Go to the "User Actions Menu" on the top right via > Settings to > Application "SAP Mobile Start".
- ▶ Here you will find both a QR code for installation (IOS and Android) and one for one-time registration:

- ▶ Once you have successfully completed these steps, the SAP Mobile Start app will be available on your smartphone and you can easily access Launchpad for Me.
