DISCLAIMER

The information contained in this presentation is for background purposes only and is subject to amendment, revision and updating. Certain statements contained in this presentation may be statements of future expectations and other forward-looking statements that are based on management's current views and assumptions and involve known and unknown risks and uncertainties. In addition to statements which are forward-looking by reason of context, including without limitation, statements referring to risk limitations, operational profitability, financial strength, performance targets, profitable growth opportunities, and risk adequate pricing, as well as the words "may, will, should, expects, plans, intends, anticipates, believes, estimates, predicts, or continue", "potential, future, or further", and similar expressions identify forward-looking statements. By their nature, forward-looking statements involve a number of risks, uncertainties and assumptions which could cause actual results or events to differ materially from those expressed or implied by the forward-looking statements. These include, among other factors, changing business or other market conditions and the prospects for growth anticipated by Wacker Chemie AG's management. These and other factors could adversely affect the outcome and financial effects of the plans and events described herein. Statements contained in this presentation regarding past trends or activities should not be taken as a representation that such trends or activities will continue in the future. Wacker Chemie AG does not undertake any obligation to update or revise any statements contained in this presentation, whether as a result of new information, future events or otherwise. In particular, you should not place undue reliance on forward-looking statements, which speak only as of the date of this presentation.

WACKER CHEMIE: INTEGRATION BASED ON TWO MAJOR RAW MATERIALS

WACKER EXPANDS POLYSILICON PRODUCTION AT ITS BURGHAUSEN SITE TO 21,500 METRIC TONS PER YEAR

THE PRICING FOR PV SYSTEMS WILL DETERMINE THE DEMAND AND SUPPLY RATIO.

Global Polysilicon Supply and Demand (in ktons; mg-Si included)

Status: 06/2007

Sources Demand: Gartner 02/2007 (Electronic); Solar Scenario 1: Photon Consulting 04/2007; Solar Scenario 2: EPIA Dec 2006;
Sources Capacities: Industry announcements and WACKER estimates (06/2007)

POLY 8: MORE POLY FOR THE SOLAR AND SEMI MARKETS

- Planned capacity for Poly 8: 7,000 tons at Burghausen, Germany
