

ENVIRONMENTAL POLICY

Wacker Chemical Corporation is committed to the protection of the environment and to the health and safety of our employees and our community. This commitment is founded on the following principles.

Promotes prevention of pollution through environmentally compatible production processes, waste minimization initiatives and the conservation of resources.

Pursues continuous improvement by ensuring that environmental protection is intrinsic to the research and development, production, application and distribution of our products.

Complies with all relevant environmental laws and regulations and engages in voluntary pollution reduction programs.

Ensures that employees are properly informed and continually trained in environmental awareness and encourages employees to help improve environmental and safety practices.

Recognizes the importance of communicating with the public and our customers about the environment and public health and safety and about the safe use of our products.

Ingomar Kovar, Ph.D.
President and CEO
