

ADVANCED APPLICATION TECHNIQUES OF EXTERNAL INSULATION AND FINISH SYSTEMS

Our expertise

Modern exterior insulation and finish systems (EIFS) provide a method of saving energy and designing a facade in a single step. Accordingly, they are of major importance for new buildings and for the renovation of existing residential and office buildings.

This seminar explains the system, its structure, use and the requirements it must meet. Case studies of EIFS in practical projects and knowledge about the correct systematic application provide some illuminations for your production and application of EIFS.

Training concept

During the two-day intensive seminar, you will learn about the individual components of the EIFS and the advantage of using polymer binders for this application. You will also be informed about current market trends, potential savings, quality problems and solutions. We will demonstrate how to apply EIFS detailed and correctly and testing the whole system.

Content

- Market and technical status of EIFS and current problems
- Current market trends of EIFS
- System components and installation
- Case study and solution of quality problems of EIFS
- Requirements and standards
- Practical work with a complete EIFS, including the carrying out of relevant test methods on the weathering wall and on test specimens

Participants

Technical managers and R&D managers with basic knowledge in construction chemistry

Benefits

- Practically-oriented information on EIFS systems, in theory and in practice
- Practical lab training in excellent equipped facilities
- Practical demonstrations on-site led by experienced experts
- Market trends on the global development and lively discussion

Your trainers

The members of our WACKER ACADEMY trainer team are Technical Service Managers who collected specific knowledge and extensive experience during their long lasting work at WACKER.

From their start of the career they have been involved with training and educational activities as well as training norms and guidelines.

Our lab trainers, who are responsible for the practical side of our seminars, have also large experience in developing formulations and test procedures.

Our whole team is working to completely fulfill your expectations and is eager to answer all your individual questions and concerns.

Venue

WACKER ACADEMY, Beijing, China
