

# DRY MIX MORTAR APPLICATIONS MODIFIED WITH VINNAPAS®

## Our expertise

WACKER POLYMERS is the world's market leader in Dispersible Polymer Powders (DPP) for the dry mix mortar industry. For over 50 years we are innovating in providing the right solutions for the key players in this segment. Our involvement in the standardization process is our initiative in pushing the industry towards high quality products which can sustain over time.

## Training concept

The two days seminar is a good mixture of theoretical input and practical demonstration on the main dry mix mortar applications and the benefits of using VINNAPAS®

Dispersible Polymer Powders

- Theoretical training
- Test methods and main standards
- Practical demonstration

## Content

- Market-oriented information about Dispersible Polymer Powders and their benefits in dry mix mortars
- Historic development of dry mix mortars
- Main standards and test methods
- Information about the latest test methods and Standards
- Main applications of VINNAPAS® polymer powders: sealing slurries, tile adhesives, tile grouts, skim coats, and self-leveling flooring compounds
- How dry mix mortars help to minimize site errors
- How dry mix mortars improve productivity & working speed
- Impact of dry mix mortars economizing the entire house building procedure

## Participants

Technical and R&D Staffs (with basic chemical knowledge)

Recommendation: Participation in our seminar  
Fundamentals of polymer binders

## Benefit

An overview of the dry mix mortar technology and exploring the possible applications and advantages with the fundamentals of DPP chemistry.

## Your Course Instructors

Members of our WACKER ACADEMY trainer team have collected specific knowledge and extensive experience during their long lasting work at WACKER.

From their start of the career they have been involved with training and educational activities as well as training norms and guidelines.

Our lab trainers, who are responsible for the practical side of our seminars, have also large experience in developing formulations and test procedures.

Our whole team is working to completely fulfill your expectations and is eager to answer all your individual questions and concerns.

## Venue

WACKER ACADEMY, Singapore or  
Location upon request

## Course Registration
