

BETTER VALUE PAINT FOR YOUR BUILDING – CEMENT POLYMER POWDER

Aims

During this 1-day seminar, you will learn about the many advantages of VINNAPAS® modified polymer paints. We will make you familiar with the product performances.

Target Group

Paint applicators & contractors

Contents

- Performance characteristics of cement paints with advantages and disadvantages
- Comparison of VINNAPAS® modified cementitious systems vs. cement paints
- Role of VINNAPAS® dispersion powders in polymer paints
- Mixing, application and testing of adhesion strength, brushability, scrub resistance & hydrophobicity

Instructors

The members of our WACKER ACADEMY trainer team are Technical Service Managers who collected specific knowledge and extensive experience during their long lasting work at WACKER.

From their start of the career they have been involved with training and educational activities as well as training norms and guidelines.

Our lab trainers, who are responsible for the practical side of our seminars, have also large experience in developing formulations and test procedures.

Our whole team is working to completely fulfill your expectations and is eager to answer all your individual questions and concerns.
