

ADD VALUE TO YOUR BUILDING WITH MODERN TECHNOLOGY – POLYMER MODIFIED DRY MIX MORTAR

Aims

The Two day seminar on “VINNAPAS® & its applications” aims to provide insight into the world of dry-mix mortars and the role of polymer binders. It emphasizes on the main application fields and other formulation additives. The practical work in the laboratory broadens your understanding of all interactions between the different additives.

Target Group

Architects, civil contractors, builders and developers, applicators, formulators

Contents

- Main applications of VINNAPAS® polymer powders:
- sealing slurries, tile adhesives, tile grout, ETICS, repair
- mortar, selfleveling flooring compounds
- How dry mix mortars help to minimize site errors
- How DMM improves productivity & working speed
- Impact of dry mix mortars economizing the entire house building procedure

Instructors

The members of our WACKER ACADEMY trainer team are Technical Service Managers who collected specific knowledge and extensive experience during their long lasting work at WACKER.

From their start of the career they have been involved with training and educational activities as well as training norms and guidelines.

Our lab trainers, who are responsible for the practical side of our seminars, have also large experience in developing formulations and test procedures.

Our whole team is working to completely fulfill your expectations and is eager to answer all your individual questions and concerns.
