

WATERPROOFING SOLUTIONS FOR BUILDINGS WITH POLYMER POWDERS

Aims

During the 1-day intensive seminar, you will learn about the many advantages of using VINNAPAS® polymers in sealing slurries. We will make you familiar with the product performance, the application techniques and the many new areas which can be covered with these unique materials.

Target Group

Applicators, contractors, builders and developers, waterproofing consultants.

Contents

- Advantage of VINNAPAS® modified sealing slurries compared to alternative systems
- How to provide sealing slurries with high water resistance, excellent adhesion and crack bridging properties
- How to work best with modified sealing slurries in practice
- Discussion how to prevent application errors on site
- Application of sealing slurries with glass fibre mesh
- Application of a protective layer (screed)

Instructors

The members of our WACKER ACADEMY trainer team are Technical Service Managers who collected specific knowledge and extensive experience during their long lasting work at WACKER.

From their start of the career they have been involved with training and educational activities as well as training norms and guidelines.

Our lab trainers, who are responsible for the practical side of our seminars, have also large experience in developing formulations and test procedures.

Our whole team is working to completely fulfill your expectations and is eager to answer all your individual questions and concerns.

Requirements

Basic knowledge of chemistry
