

FUNDAMENTALS OF POLYMER BINDERS

Our expertise

WACKER as your raw material supplier contributes a lot to the value of your products. Therefore, it is important for you to know how WACKER and its organization can be your partner in providing the right solution. The chemical background of VINNAPAS® polymer powders and dispersions helps you to understand how you can improve the performance of your products. Basic formulations help you to find new ideas for your business.

Training concept

The three-day seminar on VINNAPAS® polymer powders and dispersions is a mixture of theoretical presentations and a practical training in our application laboratory. It guarantees you an interesting and diversified insight into the world of polymer chemistry and the usage and advantages of polymer powders and dispersions.

Content

- Introduction to polymer chemistry
- Polymers as binders
- Manufacture and effect of dispersions and polymer powders
- Function and mechanism of hydraulic binders
- Theoretical introduction to the main fields of application (e.g. tile adhesives, self-leveling flooring compounds, plasters, external thermal insulation composite systems)
- Discussion on guideline formulations
- Key tests and standards (in the lab)
- Devising formulations in practice (in the lab)

Participants

Technical managers and R&D managers (no previous knowledge of chemistry is assumed)

Benefits

- Market-oriented information on polymer powders and dispersions
- Practical training in a state-of-the-art laboratory
- Lively discussions on trends and global developments
- Visit of our main production site and technical center

Your trainers

The members of our WACKER ACADEMY trainer team are Technical Service Managers who collected specific knowledge and extensive experience during their long lasting work at WACKER.

From their start of the career they have been involved with training and educational activities as well as training norms and guidelines.

Our lab trainers, who are responsible for the practical side of our seminars, have also large experience in developing formulations and test procedures.

Our whole team is working to completely fulfill your expectations and is eager to answer all your individual questions and concerns.

Venue

WACKER ACADEMY, Moscow/Russia
