

SILANES FOR CONCRETE PROTECTION

How to avoid costly concrete damage due to reinforcement corrosion.
1-day fundamental seminar.

Aims

You will gain essential knowledge about waterrepellant treatment as corrosion inhibition of concrete and understand the use and advantages of silanes.

Target Group

Technical managers and
R&D managers

Contents

- Introduction to silicone chemistry
- Reasons for concrete protection
- Concrete – building material of the future
- Important tests and standards
- Discussions on guideline formulations
- Carrying out tests in the lab

Instructors

Anoop D' Souza

Requirements

Basic knowledge of chemistry

Dates

Upon request (English or Arabic)

Duration

1 day

Location

**WACKER ACADEMY,
Dubai/UAE**

Fees

USD 300

Number of Participants

4 – 50
