## WACKER to Raise Prices for Dispersions, Resins and Dispersible Powders from Europe

**Munich, June 22, 2022 – Effective July 1, 2022, or as customer contracts allow, the WACKER Group is to raise its prices for dispersions, resins and dispersible polymer powders sourced from its production sites in Europe. Prices for these products will be increased by up to 10 percent. This measure has been necessitated by rising costs for raw materials and logistics. Surging costs will also result in an increase in existing surcharges for dispersible polymer powders. The price adjustments will enable the WACKER POLYMERS division to continue providing customers with high product quality, technological innovations, best-in-class customer service and technical support, along with supporting investment to secure the capability for future growth across focus markets.**

WACKER POLYMERS is a leading producer of state-of-the-art binders and polymeric additives based on polyvinyl acetate and vinyl acetate copolymers and terpolymers. These take the form of dispersible polymer powders, dispersions, solid resins, and solutions. They are used in construction chemicals, paints and surface coatings, adhesives, sealants, carpet applications and nonwovens, as well as in fiber composites and polymeric materials based on renewable resources.

WACKER POLYMERS operates production sites in Germany, China, South Korea and the USA. The business division also maintains a global sales organization and runs technical centers in all key regions.

**The company in brief:**

WACKER is a globally active chemical company with some 14,400 employees and annual sales of around €6.21 billion (2021). WACKER has a global network of 26 production sites, 23 technical competence centers and 52 sales offices.

**WACKER SILICONES**

Silicone fluids, emulsions, rubber grades and resins; silanes; pyrogenic silicas; thermoplastic silicone elastomers

**WACKER POLYMERS**

Polyvinyl acetates and vinyl acetate copolymers and terpolymers in the form of dispersible polymer powders, dispersions, solid resins and solutions

**WACKER BIOSOLUTIONS**

Biotech products such as cyclodextrins, cysteine and biologics, as well as fine chemicals and PVAc solid resins

**WACKER POLYSILICON**

Polysilicon for the semiconductor and photovoltaic industries
