HTV SOLID SILICONE RUBBER GRADES

**SILMIX<sup>®</sup> –  
COMPOUNDED EXCELLENCE**

**Customized Solutions For Your  
Individual Needs**

# EXPECT THE UNEXPECTED

The SILMIX® brand name covers a range of high-quality, ready-to-process silicone rubber grades. SILMIX® products are developed in the WACKER lab precisely to individual customer requirements, compounded and delivered ready to use. SILMIX® products provide a direct and reliable way of manu-

facturing a wide range of silicone rubber articles by the conventional shaping processes of compression and transfer molding, injection molding and extrusion – while minimizing production outlay and time consumption.

## TAKE ADVANTAGE OF ALL SILMIX® BENEFITS

### Increase Your Productivity:

- No milling step at your facility
- Material can be fed immediately to your extruder/molding equipment
- No stock management at your site for various additives and bases
- Short delivery times
- Multiplicity of delivery forms and colors
- Flexible blend formulations according to your individual requirements

### Set On Compelling Quality:

- All raw materials tested and fully certified by WACKER
- Consistent quality through QC lab working according to international WACKER standards and state-of-the-art equipment
- Consistent raw material properties across different part suppliers using our compounds

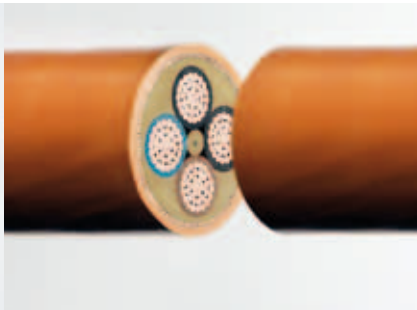

# WHICH APPLICATION DO YOU NEED?

SILMIX® compounds are perfect for a variety of industrial applications ranging from automotive and cable to consumer articles.

## Some Examples:

- High temperature resistant and high green strength compound for automotive hoses
- Fire retardant cable compound
- Colored compounds for molding of kitchenware articles

## UNLIKE OTHERS, WE DO BUSINESS FACE TO FACE

Trust in integrated solutions based on high-quality products and comprehensive service. Our customers gain ready access to comprehensive technical support, analytical techniques, ultramodern laboratory and test methods directly from the raw materials specialist. With the outstanding support of our expert teams, you will be able to develop a constant stream of new solutions and customize WACKER products to your specific needs.

You will find WACKER's SILMIX® sites around the world offering a regionally specific orientation to

local requirements and needs, while also meeting our high-quality standards.

### SILMIX® Facilities Worldwide

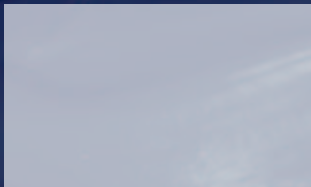

WACKER compounds silicone rubber for the European market in Burghausen (Germany) and Pilsen (Czech Republic). The US market is catered to by SILMIX® Ohio, which is located in North Canton and SILMIX® California, which is located in Chino, a suburb of Los Angeles.

By now well-established are the Asian SILMIX® locations in Zhangjiagang (China) and Amtala, near Kolkata (India).
