

For WACKER, efficiency doesn't stop with your order. You can profit from our service-oriented concepts throughout the entire process. E-Invoicing is one of these concepts; it helps you to maximize the potential of process optimization.

Your advantages at a glance:

- High flexibility
- Fast and easy invoicing

- Shorter throughput times
- Reduced administrative effort
- Fewer sources of errors
- Greater availability
- Maximum transparency
- Optimum visibility of the payment conditions
- Lower costs

Reap the benefits. Talk to us.
We will gladly advise you!

The data presented in this brochure are in accordance with the present state of our knowledge, but do not absolve the user from carefully checking all supplies immediately upon receipt. We reserve the right to alter product constants within the scope of technical progress or new developments. The information given in this brochure should be checked by preliminary trials because of conditions during processing over which we have no control, especially where other companies' raw materials are also being used. The information provided by us does not absolve the user from the obligation of investigating the possibility of infringement of third parties' rights and, if necessary, clarifying the position. Recommendations for use do not constitute a warranty, either express or implied, of the fitness or suitability of the product for a particular purpose.

THE CLEVER IDEA FOR
INVOICE HANDLING.

CREATING TOMORROW'S SOLUTIONS

SIMPLIFY COMMUNICATION.
REDUCE EFFORT AND EXPENSES.

E-INVOICING: END-TO-END EFFICIENCY.

With E-Invoicing, WACKER offers an innovative solution for smooth and efficient invoice handling. You receive your invoices electronically in PDF format and with a digital signature – in a secure, reliable, legally-compliant and environmentally-friendly manner. This streamlines processing, cuts administrative effort and reduces costs.

Needs-based implementation.
Thanks to high flexibility.

E-Invoicing adapts specifically to your company's workflows: Invoices can be selectively retrieved either by email or downloading from the web, or they can be posted and archived completely automatically via a direct ERP (Enterprise Resource Planning) system interface. This saves time and prevents errors.

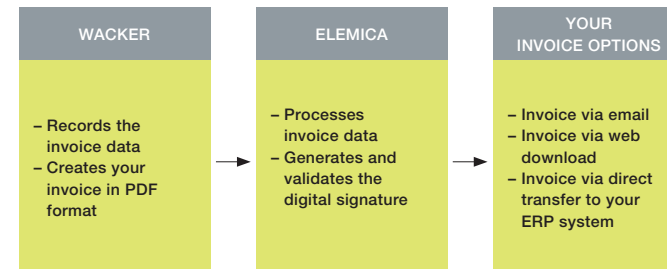

Less effort.
With fewer costs.

Electronic invoice receipt simplifies further processing: invoices can be quickly and easily distributed and forwarded. Tedious scanning and indexing are eliminated, speeding up processing while reducing costs.

Better cost control.
Through maximum transparency.
Electronic invoices are available exactly where they are needed – without delay. All administrators involved have direct access to them. This enables better monitoring of deadlines, payment conditions and cash discount periods, saving you time and money.

ELECTRONIC INVOICING VIA ELEMICA.

ELEMICA is **the** leading transaction network of the chemical industry. As an independent provider, ELEMICA handles electronic data interchange tasks and "translates" between different systems.

PDF invoice.
Simple and easy to use.
You decide whether you want to receive your invoices via email, in the web or through a protected access point. WACKER feeds the invoice data to ELEMICA and ELEMICA then provides you with the invoice in PDF format.

Direct data transfer.
Quick and reliable.
Through a direct interface, ELEMICA can specifically transfer invoice data into your ERP system. From there, everything else (e.g. posting and archiving) is taken care of automatically.
