EMPOWER YOUR FORMULATION!

The information provided is addressed to an expert audience only and is available worldwide. It may contain statements that do not apply to your country. As claims do not refer to finished products, but solely to ingredients, they may not conform to Regulation (EC) No. 1924/2006. It is up to the marketer of any finished product to ensure that the finished product containing such ingredients and the claims associated therewith are lawful and are in compliance with all valid legislation and regulations of the country or countries where said product is to be sold.

The data presented in this medium are in accordance with the present state of our knowledge but do not absolve the user from carefully checking all supplies immediately on receipt.

We reserve the right to alter product constants within the scope of technical progress or new developments. The recommendations made in this medium should be checked by preliminary trials because of conditions during processing over which we have no control, especially where other companies’ raw materials are also being used. The information provided by us does not absolve the user from the obligation of investigating the possibility of infringement of third parties’ rights and, if necessary, clarifying the position. Recommendations for use do not constitute a warranty, either express or implied, of the fitness or suitability of the product for a particular purpose.
WACKER’S POWERFUL NUTRACEUTICALS

WACKER provides unique solutions for creating powerful dietary supplement formulations. Our range of bioactive substances addresses global market needs. WACKER holds multiple patents and supports clinical studies, allowing us to continuously identify new potent ingredients with superior performance.

Efficient Bioavailability

CAVAMAX® cyclodextrins are able to host lipophilic “guest” molecules. This encapsulation can be used to considerably improve the bioavailability of bioactive substances.

Innovative Dosage Forms

CAVAMAX® complexes improve the dispersibility of hydrophobic substances. This enables innovative dosage forms such as gummies, drinks and sprays.

Heart Health

HTEssence® for Healthy LDL-Cholesterol Levels

High LDL (low-density lipoprotein) cholesterol levels are one main factor in the occurrence of coronary heart disease and atherosclerosis. HTEssence® is a unique natural hydroxytyrosol of superior purity that is synthesized in a patented process and has been demonstrated to significantly reduce LDL cholesterol.

CAVAQ10® for Supporting Cardiovascular Health

Coenzyme Q10 (CoQ10), also known as “ubiquinone,” has been linked to improved circulatory health and supporting optimum heart muscle function. CAVAQ10® is a complex of CoQ10 powerfully encapsulated in gamma cyclodextrin and has been shown to have an 18-fold higher bioavailability compared to other CoQ10 products.

Healthy Living

CAVAMAX® W6 for Supporting a Low-GI Diet

CAVAMAX® W6 alpha-dextrin is a naturally occurring cyclic oligosaccharide and a water-soluble dietary fiber whose positive effect on the glycemic index (GI) has been proven in a clinical trial. A low-GI diet can help to reduce the risk of heart disease and other diseases related to blood sugar levels.

CAVACURMIN® for Exploiting the Positive Effects of Curcumin

Curcumin is one of the most popular biofunctional substances with multiple health benefits backed by countless studies. Yet, it shows poor bioavailability. CAVACURMIN® is a highly bioavailable curcumin powder that is around 40 times more efficiently absorbed than pure turmeric extract.

Healthy Skin

HTEssence® for Skin Lightening

Hydroxytyrosol effectively increases glutathione levels within the cells. High glutathione levels are associated with high production of melanin, which leads to a lighter pigmentation of the skin. At the same time the production of the dark pigment eumelanin is reduced. A human clinical study shows effective skin-lightening (5% increase) after using solution with WACKER’s HTEssence® for 90 days.

CAVAQ10® for Supporting Cardiovascular Health

Coenzyme Q10 (CoQ10), also known as “ubiquinone,” has been linked to improved circulatory health and supporting optimum heart muscle function. CAVAQ10® is a complex of CoQ10 powerfully encapsulated in gamma cyclodextrin and has been shown to have an 18-fold higher bioavailability compared to other CoQ10 products.

L-Cysteine for Strong Hair and Nails

The amino acid L-cysteine is said to support strong nails and beautiful hair and is the precursor to the important antioxidant glutathione. WACKER is the first company to produce pure L-cysteine in a patented biotechnological process based on fermentation. But L-cysteine is highly pure, BSE/TSE-safe and certified as kosher and kosher.
