

POWERSIL® SHINE

Silicone Fluid Emulsions

POWERSIL® SHINE is a ready to use, one-component silicone-in-water-emulsion. The material is ideally applicable to clean electrical equipment and to enhance its surface hydrophobicity, thus its electrical insulating performance.

Properties

- Comes ready-to-use in a handy pump spray bottle Good cleaning behaviour
- Improvement of the hydrophobicity
- Does not contain solvents
- Does not contain abrasives

Technical data

Properties Uncured

Property	Condition	Value	Method
Emulsifier type	-	nonionic	-
Appearance	-	milky	-
Silicone content	-	40 %	-

All the information provided is in accordance with the present state of our knowledge. Nonetheless, we disclaim any warranty or liability whatsoever and reserve the right, at any time, to effect technical alterations. The information provided, as well as the product's fitness for an intended application, should be checked by the buyer in preliminary trials. Contractual terms and conditions always take precedence. This disclaimer of warranty and liability also applies particularly in foreign countries with respect to third parties' rights.

Applications

- Insulators

Application details

POWERSIL® SHINE is intended for servicing and cleaning of electrotechnical equipment. The material is used to improve the hydrophobic effect and the appearance of aged and polluted surfaces. Experience shows that even adherent pollution layers can be removed.

Due to its nature the agent provides a surface enhancing effect which goes in line with improved wet electrical insulation behaviour.

Shake before use.

Spray onto the polluted surface, distribute and wipe with a cleaning cloth. Repeat until desired result is achieved.

Packaging and storage

Packaging

Pump spray bottle 500 ml

Storage

Store the material between 10°C and 30°C in the originally sealed container. The material contains water. Avoid storage at low temperatures. Store in dry and cool place. Protect against sun and frost.

The 'Best use before end' date of each batch is shown on the product label.

Storage beyond the date specified on the label does not necessarily mean that the product is no longer usable. In this case however, the properties required for the intended use must be checked for quality assurance reasons.

Safety notes

Avoid prolonged exposure to vapours and repeated skin contact. Wear gloves and safety glasses.

Keep away from children.

Comprehensive instructions are given in the corresponding Material Safety Data Sheets. They are available on request from WACKER subsidiaries or may be printed via WACKER web site <http://www.wacker.com>.
