

Silane HD-Trimethoxy

GENIOSIL®

Silanes

Colorless, clear liquid with weak odor.

Silane HD-Trimethoxy is used as water scavenger in Xb-PE application, mainly for cable or tube applications.

Empirical formula $C_{19}H_{42}O_3Si$ | Molecular weight 346.62 g/mol

Properties

Soluble in organic solvents, not in water.

Technical data

General Characteristics

Property	Condition	Value	Method
Appearance	-	clear and colorless liquid	-
Color	-	colorless	-
Purity	-	> 90 %	-

All the information provided is in accordance with the present state of our knowledge. Nonetheless, we disclaim any warranty or liability whatsoever and reserve the right, at any time, to effect technical alterations. The information provided, as well as the product's fitness for an intended application, should be checked by the buyer in preliminary trials. Contractual terms and conditions always take precedence. This disclaimer of warranty and liability also applies particularly in foreign countries with respect to third parties' rights.

Store in a dry and cool place.

Protect against frost.

Applications

- Thermoplastics & Elastomers

Application details

Avoid access of moisture during handling and processing. The application of Silane HD-Trimethoxy is so dependent upon the manufacturer's own process that no specific suggestions can be made.

Dosage levels of Silane HD-Trimethoxy are typically between 0.3 - 0.5 %.

Packaging and storage

Packaging

- 25 KG can
- 180 KG drum
- 850 KG IBC
- 20 to Tank-Container

Storage

The 'Best use before end' date of each batch is shown on the product label. Storage beyond the date specified on the label does not necessarily mean that the product is no longer usable. In this case however, the properties required for the intended use must be checked for quality assurance reasons.

Safety notes

Comprehensive instructions are given in the corresponding Material Safety Data Sheets. They are available on request from WACKER subsidiaries or may be printed via WACKER web site <http://www.wacker.com>.
