α,Ω - Trimethylsilylpolydimethylsiloxane

Applications

- Adhesives
- Sealants

Application details

WACKER[®] PLASTICIZER 100 US is used as a raw material for the production RTV-1 silicone sealants.

Packaging and storage

Storage

The "Best use before end date" of each batch is shown on the Certificate of Analysis. Storage beyond the date specified on the Certificate of Analysis does not necessarily mean that the product is no longer usable. In this case however, the properties required for the intended use must be checked for quality assurance reasons.

Safety notes

For specific information regarding safe handling of this material, please refer to the Safety Data Sheet.
