

HIGH-PERFORMANCE SILICONE SEALANTS FOR EXCELLENT RESULTS

A silicone sealant always finds use where a gap requires filling or a joint needs to be sealed. Compared with alternative sealing systems, silicone sealants will last a very long time, thanks to their stable quality. Silicone sealants do not show high shrinkage, as is the case with acrylics, and exhibit excellent movement capability. Therefore, they are ideally suited for walls and floors of buildings or washbasins and bath tubs that are typically exposed to some movement. Furthermore, silicone sealants are very cost-efficient.

Why Use Silicone Sealants from WACKER?

WACKER has a 100-year history and is one of the world's leading construction solution providers. With over 60 years' experience in silicon chemistry, WACKER played a pioneering role in developing silicone sealants and remains a technological leader in this area.

WACKER sealants are indispensable as sustainable products in virtually all key industries. The WACKER® SILICONE SEALANT brand is the product of choice for construction and industrial applications from connection and expansion joints to sanitary sealing needs.

Product	Main Characteristics	Application Fields	Colors
Silicones			
WACKER® GP General Purpose	One-part, acetoxy silicone sealant for many applications.	<ul style="list-style-type: none"> • Renovation work and repairing • Bonding and gap filling • Sealing of connection and expansion joints, both inside and out • Glazing and plumbing, air-conditioning ducts, cars and boats 	Transparent, bronze S1, gray S1, black S1, brown S1, white S1, beige S1, beige 31
WACKER® GS General Sanitary	One-part, acetoxy silicone sealant, particularly suitable for sanitary applications.	<ul style="list-style-type: none"> • Variety of do-it-yourself applications • Joints in sanitary areas • Specifically suitable for areas exposed to high humidity 	Transparent, white S1
WACKER® GP-N General Purpose Neutral	One-part, neutral silicone sealant with outstanding adhesion to alkaline building substrates.	<ul style="list-style-type: none"> • Fenestration • Glazing 	Gray, black, brown, white, transparent
WACKER® SN Sanitary Neutral	One-part, neutral silicone sealant for sanitary applications especially suitable for alkaline substrates and plastics.	<ul style="list-style-type: none"> • Joints in sanitary areas • Specifically suitable for areas exposed to high humidity • Mold resistant sealant neutral for various substrates 	Transparent, white, ivory
WACKER® WN Weatherseal Neutral	One-part, neutral silicone sealant for exterior joints with outstanding weather resistance and durability.	<ul style="list-style-type: none"> • Sealing of aluminum curtain wall joints • Aluminum panels and enameled joints • Joints for window perimeter • Internal/external joints of buildings 	Gray, bronze, black, white, transparent
WACKER® WS Weatherseal Superior	One-part, neutral silicone sealant that exhibits good adhesion without a primer on most building materials.	<ul style="list-style-type: none"> • Non-staining and non-bleeding of mineral substrates • Joint sealer for aluminum substrates without use of primer • Internal/external joints of buildings 	Gray, black, bronze
Hybrids			
WACKER® HS Hybrid Sealant	High-modulus, paintable, all-purpose sealant suitable for a variety of different substrates.	<ul style="list-style-type: none"> • Sealing of constructional joints between a wide variety of materials such as wood, glass, plastics or mineral based substrates • Gap filling • Mirror adhesive 	White, gray
WACKER® HA Hybrid Adhesive	High-strength, silicone-free, all-purpose adhesive for bonding and repairing many different substrates.	<ul style="list-style-type: none"> • Bonding of decorative frames, skirting boards, cable ducts, facing panels and insulation • Bonds can be painted and sanded 	White
Acrylic			
WACKER® PS Paintable Acrylic Sealant	One-part, water-based, acrylic sealant for internal and external cracks as well as building repair. Paintable if dried.	<ul style="list-style-type: none"> • Crack repair • Paintable joint sealing • Joints around indoor plaster • Joints exposed to little movement 	White

Developed With 100 Years of Experience

Founded in 1914, WACKER is one of the world's largest silicone manufacturers today. Our products are renowned for their quality and, thanks to German technology, preferred by experts around the globe.

- International/German brand
- Stable quality
- High-performance products
- Security of supply
- 100-year-old company
- Strong and healthy supplier
