A CLEAN LOOK
AND PURE CARE

MEET TOMORROW'S HAIR COSMETICS

Innovations drive the cosmetic industry – especially in hair care. And WACKER ranks among the chemical industry's most research-intensive companies, creating special effect silicone solutions that are focused on consumer needs and the evolving beauty-care market.

Transparency is the latest WACKER special effect and the key to a modern clean look - resulting in a complete hair-care line with a promise of purity.

Manufacturer Benefits

Transparent fluid or microemulsions make it easy for formulators to design a pure product line. They allow trendsetting colored and perfumed components to develop their full effect.

Consumer Benefits

WACKER special-effect silicone solutions are pure care. They give damaged hair a silky soft feel that hardly any other additive can match. The anti-frizz oil, in particular, with the genuine power of a BELSIL®, gives dry and stressed hair new vitality. Transparent shampoos formulated with BELSIL® PF 200 impart a radiant sheen and tempting softness to any type of hair, while conditioners provide professional styling: ensuring a strong hold while maintaining a soft appearance and lively bounce. Multi-effect sprays simplify care, with superior combability of wet and dry hair, fast drying and brilliant gloss in one bottle. Heat-protection is provided by a BELSIL® P 1101 formulated mist, which also retains the moisture in the hair fibers.

Persuasive pure care with a tempting clean look – WACKER TRANSPARENCY.
