ADVALON® FF 230  
NEW DIMENSIONS IN FIBERFILL FINISHING

CREATING TOMORROW'S SOLUTIONS

# EXTREMELY SOFT AND HIGHLY EFFICIENT – FIBERFILL FINISHING WITH ADVALON® FF 230

**Textiles with properties you can feel – our novel ADVALON® FF 230 puts on an impressive show by combining softness and resilience with high efficiency and easy handling. You'll definitely feel the quality.**

## **Impressive Properties**

ADVALON® FF 230 ensures that textile fibers are very high quality by providing them with key properties such as softness, a pleasant feel, and permanent resilience. This is the result of the lubricating effect of silicones. After all, it reduces friction between the individual fibers and promotes the natural elasticity of the fiberfill wadding. But this one-component system is impressive in other ways, because our highly efficient product is both simple to process and easy to use. What's more, individual features can be customized to your specific needs.

## **Tailored to Fiberfill**

ADVALON® FF 230 is ideal for finishing polyester fiberfill in quilts, pillows and similar products. Our novel silicone emulsion imparts excellent softness, smoothness and resilience. Yet ADVALON® FF 230 also provides synthetic fabrics, glass fibers, non-wovens and felts with unbeatable shape-retention properties. The fibers thus keep their bulkiness, body and resilience for as long as possible.

ADVALON® FF 230 promotes  
the natural elasticity of  
fiberfill wadding.

#### Your Key Benefits

- Easy-to-use one-component system
- Very high softness and recovery
- Neutral color
- Minimum yellowing
- Suitable for standard impregnation techniques such as dipping, padding and spraying

#### Silicones and Service

As well as creating effective products, at WACKER we firmly believe in providing customized service and support. If you have any questions about ADVALON® products in terms of how they work, their uses, processing and logistics, just contact our teams of experts. They'll be sure to find the perfect answer to your situation. WACKER is dedicated to solving its customers' problems. You can always count on WACKER, wherever you are in the world.
