

SIPELL[®] RE 12

Functional Silicone Fluids

SIPELL[®] RE 12 is a modified silicone fluid of medium viscosity whose special chemical structure imbues it with the benefits of silicone fluids and mineral oils. SIPELL[®] RE 12 has excellent compatibility with paraffin wax based leather finishes.

SIPELL[®] RE 12 imparts excellent water repellency. SIPELL[®] RE 12 can be used to improve the abrasion resistance of finished leather goods.

Additionally, SIPELL[®] RE 12 provides a characteristic softness. These properties are important for automotive, furniture and shoe leather.

Technical data

General Characteristics

Property	Condition	Value	Method
Appearance	-	Colorless liquid	-
Density	25 °C	0.912 g/cm ³	-
Viscosity, dynamic	-	800 - 1400 mPa·s	-

These figures are only intended as a guide and should not be used in preparing specifications.

All the information provided is in accordance with the present state of our knowledge. Nonetheless, we disclaim any warranty or liability whatsoever and reserve the right, at any time, to effect technical alterations. The information provided, as well as the product's fitness for an intended application, should be checked by the buyer in preliminary trials. Contractual terms and conditions always take precedence. This disclaimer of warranty and liability also applies particularly in foreign countries with respect to third parties' rights.

Application details

For easy application, SIPELL[®] RE 12 may be diluted with solvents such as white spirit and aromatic hydrocarbons.

Packaging and storage

Storage

The "Best use before end date" of each batch is shown on the Certificate of Analysis. Storage beyond the date specified on the Certificate of Analysis does not necessarily mean that the product is no longer usable. In this case however, the properties required for the intended use must be checked for quality assurance reasons.

Safety notes

For specific information regarding safe handling of this material, please refer to the Safety Data Sheet.
