

WACKER® E 335

Silicone Fluid Emulsions

WACKER® E 335 is a silicone emulsion of a polydimethylsiloxane fluid designed for use in the food industry as a lubricant and other specialty applications. WACKER® E 335 meets the following 21 CFR Clearances: 173.340(a) (3) [sugar beets and yeast], 175.105, 175.300, 176.170, 176.180, 176.200, 176.210, 177.1200, 177.2260, 177.2600, 177.2800, 178.3570 & 178.3910. 21 CFR 178.3400 is not applicable as this code is only applicable to emulsifiers and surfactants. The WACKER® E 335 silicone emulsion does use an emulsifier.

Technical data

General Characteristics

Property	Condition	Value	Method
pH	-	6.0 - 8.0	-
Appearance	-	milky liquid	ASTM D 412
Active content	-	35.0 %	WSTM 1297
Ionic character	-	nonionic	-
Solid content	-	36.0 - 44.0 %	-

These figures are only intended as a guide and should not be used in preparing specifications.

All the information provided is in accordance with the present state of our knowledge. Nonetheless, we disclaim any warranty or liability whatsoever and reserve the right, at any time, to effect technical alterations. The information provided, as well as the product's fitness for an intended application, should be checked by the buyer in preliminary trials. Contractual terms and conditions always take precedence. This disclaimer of warranty and liability also applies particularly in foreign countries with respect to third parties' rights.

Application details

WACKER® E 335 is recommended to be mixed before use. WACKER® E 335 is applied as is

Packaging and storage

Storage

The "Best use before end date" of each batch is shown on the Certificate of Analysis. Storage beyond the date specified on the Certificate of Analysis does not necessarily mean that the product is no longer usable. In this case however, the properties required for the intended use must be checked for quality assurance reasons.

Safety notes

For specific information regarding safe handling of this material, please refer to the Safety Data Sheet.

The data presented in this medium are in accordance with the present state of our knowledge but do not absolve the user from carefully checking all supplies immediately on receipt. We reserve the right to alter product constants within the scope of technical progress or new developments. The recommendations made in this medium should be checked by preliminary trials because of conditions during processing over which we have no control, especially where other companies' raw materials are also being used. The information provided by us does not absolve the user from the obligation of investigating the possibility of infringement of third parties' rights and, if necessary, clarifying the position. Recommendations for use do not constitute a warranty, either express or implied, of the fitness or suitability of the product for a particular purpose.
